About Our Company

Global Edge Sourcing Ltd., was established in 2017 as a privately owned company with its head in the centre of Israel. We have our regional representatives in the USA, Latin and South America and Eastern European countries. We are the official distributor of leading steelworks and wood manufacturers and other unique products. Our main business is the sale of various steel and wood products worldwide. In addition as an official Broker in the Belarusian Universal Commodity Exchange we have full access to: Metal products, Timber products, Agricultural products, Petrochemicals and many more. We prioritize quality over quantity of our services, in order to insure that our business partners will stay with us for the long run.

PRODUCTS

Construction bars

Bar - is a universal building material made of wood, used in various fields. Only solid pieces of wood are taken for its production. It has a rectangular or square section, and its thickness exceeds 100 mm.

Boards

Boards — a type of lumber, whose width exceeds the thickness of two or more times. The thickness of boards — from 13 to 100 mm, width — from 50 to 260 mm. Boards with a thickness of 13 to 35 mm are called thin, the rest — thick. The wide sides of the boards are called faces, narrow — edges. By processing the side edges of the board are divided into edged, in which the edges are sawn off, and unedged, the edges of which are partially sawn or not sawn at all.

Pallets board

Pallet Board - (pallet billet) is used for the production of pallets and other containers. Species of wood:

- Pine
- Spruce

We guarantee good quality of goods and pleasant conditions of cooperation.

Wood chips

Wood Chips - it is a valuable product that is obtained by crushing or chopping wood.
